

2013 Sienna

The 2013 Sienna was built to make things better

Sienna isn't just the perfect vehicle for transporting passengers – 7 or 8 to be exact – it's about adapting to your everyday needs. From its wide stance and streamlined profile all the way up to its elegant, refined interior, Sienna will get you wherever you need to go, in both comfort and style.

If you're taking a long trip with the kids, Sienna is loaded with tons of standard and available features to keep them busy. And as the only minivan in Canada available with AWD, you'll have peace of mind knowing that you can focus on your destination and not on road conditions.

Toyota's commitment to safety is demonstrated through our innovative Star Safety System™, and our dedication to reliability is proven by the fact that over 80% of Toyotas sold in Canada in the last 20 years are still on the road today*. Those are just a few reasons why you'll feel more confident than ever sitting behind the wheel.

The 2013 Sienna, like every single one of our vehicles, was built to make things better. It's just how we approach everything we do, every day.

FRONT COVER

Sienna SE shown in Black.

*Based on R. L. Polk Canadian Vehicles In Operation and new registrations MY 1993-2012 as of June 30, 2012.

Sienna XLE with available
accessory roof rack crossbars
shown in Salsa Red Pearl.

DUAL MOONROOF

The available dual moonroof creates an airy and open interior atmosphere while allowing for a great view of the sky. The front moonroof tilts open and slides over the roof, while the rear moonroof slides into the ceiling.

COMPLETE COMFORT

The interior wood accents of the Sienna XLE with Limited Package signal you're in the lap of luxury. The 60/60 overlapping design of the dash reinforces that feeling, allowing for easy access to the centre console's switches and controls, as well as the available DVD Based Navigation System.⁴

Technology that moves you

Features that make every drive a memorable one.

The 2013 Sienna is packed with features that will make your drive enjoyable, no matter how far you're planning on going. It's not only stylish, but offers a luxurious ride and comfortable seating

for all passengers. And with the latest technology within everyone's reach, you'll never have to worry about keeping anyone occupied.

DUAL-VIEW ENTERTAINMENT SYSTEM⁵

The available Dual-View Entertainment System⁵ can be used as a single or split-screen and includes headphone jacks for added peace and quiet.

PANORAMA REARVIEW CAMERA

A 180-degree wide angle or regular view of the area behind your vehicle can be displayed on the available Navigation System⁶ screen with the Panorama Rearview Camera.

Travel in style

Comfort and design taken to the next level

Sienna SE shown in Alpine White.

Sienna is all about space and versatility, but it's also about comfort and design. With available woodgrain-style accents or sport instrumentation and carbon fibre-style trim, you'll impress anyone who's along for the ride. Second row seating features dual armrests that adjust, map lamps that swivel and climate controls right at your fingertips. And with a 585 mm [23-inch] sliding range for Sienna's second-row seats, passengers will be able to easily enter and exit the vehicle through its dual sliding side doors.

STYLISH INTERIOR

The sporty SE features exclusive seat upholstery, chrome accents and a piano-black finish.

POWER REAR DOOR

When your hands are full, the available power rear door opens and closes via the remote keyless entry or available Smart Key fob. It even features a one second jam protection delay between the door reaching the bottom position and fully closing.

SLIDING SECOND CONSOLE

To sync up with the long sliding range of the second-row seats, Sienna XLE features a centre console that expands and slides rearward.

STOWABLE CENTRE PASSENGER SEAT

On 8-passenger models, the versatile centre seat in the second-row folds upright to form a comfortable seat. Or it can be removed and stored in its storage compartment, leaving captain's chairs and two additional cupholders.

Ready for anything

Designed with versatility in mind

Life is in a constant state of change, and Sienna was designed specifically to change with it. Available in 7 or 8-seat passenger models, the seats can be configured in a number of ways, depending on your

daily need. And with an incredibly spacious interior, every passenger can feel as if their seat is the best seat. Whether it's for work or for play, Sienna is ready to take it on.

SECOND-ROW TIP-UP LONG SLIDE

The second-row seat cushions tip-up, allowing the entire row to slide further forward to provide extra cargo space and easy rear-passenger entry.

[Not available with lounge seating]

CARGO SPACE

Depending on your seat configuration, the cargo volume can be adjusted from 1.11 m³ (39 cu.ft.) all the way up to 4.25 m³ (150 cu.ft.). The second-row middle seat can also be folded up and stored in the cargo area.

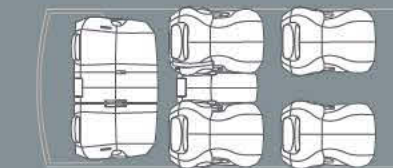

DUAL POWER SLIDING SIDE DOORS

The available dual power sliding side doors open wider, so it's easier to step in and out – or load and unload cargo.

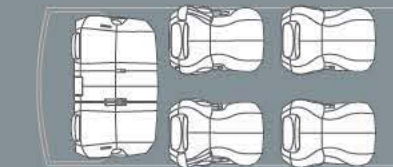

SEAT CONFIGURATION

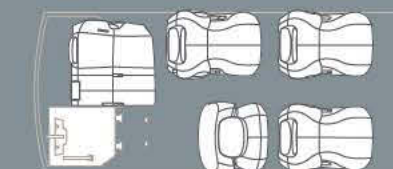

Sienna's seating can be arranged for maximum occupancy, either 8 passengers or 7 passengers, depending on the model – and for maximum cargo, or variations of the two.

8-Passenger Seating

7-Passenger Seating

7-Passenger Seating with Tip-Up and Long-Slide Second Row

Peace of mind

Safety features like no other

Sienna's body offers a wider stance, giving you greater confidence and control when turning corners. Additionally, it is outfitted with seven advanced airbags,¹ electric power steering and a long list of standard safety features, which means no matter where you are, you and your passengers can always feel secure.

SUPPLEMENTAL RESTRAINT SYSTEM (SRS)¹
Sienna comes standard with a comprehensive airbag system which includes:

- [1] Dual-Stage driver and front passenger airbags.¹
- [2] Front and rear head/ side curtain airbags.¹
- [3] Front seat-mounted side airbags.¹
- [4] Driver's knee airbag.¹

A. SEATBELTS
Sienna features a 3-point Emergency Locking Retractor seatbelt for the driver's seat and Automatic/Emergency Locking Retractors for all passenger belts.

B. SIDE-IMPACT DOOR BEAMS
Within each of Sienna's four doors are steel beams designed to help protect the occupants in the event of a side-impact collision.

C. LATCH
Short for Lower Anchors and Tethers for Children, LATCH includes lower anchors on outboard second-row seats and the middle seat in the third row.

D. RAIN-SENSING WIPERS
The available rain-sensing wipers use sensors to detect when it's raining and the amount of rainfall, then adjusts the wiper interval and speed automatically so that you can concentrate on the road, not the windshield.

E. REAR CLEARANCE AND BACKUP SONAR
To assist during parking manoeuvres, the available rear clearance sonar helps you gauge the area in a parking space. For added convenience, the Limited Package offers an additional front sonar.

F. HIGH-INTENSITY DISCHARGE (HID) HEADLAMPS
The available HID headlamps use less power, last significantly longer and provide considerably more illumination than halogen lights.

G. BLIND SPOT MONITOR (BSM)
The available Blind Spot Monitor is designed to detect vehicles positioned or approaching in the adjacent lanes. At speeds above 40 km/h, if a vehicle is detected, the driver is notified by an illuminated icon in the outer mirror on the affected side.

STAR SAFETY SYSTEM™

2013 Sienna comes standard with the Star Safety System™. This integration of active safety features is designed to protect occupants by helping drivers avoid accidents in the first place.

- VSC VEHICLE STABILITY CONTROL**
Helps prevent slips and loss of traction by reducing engine power and applying the brake force to the wheels that need it.⁶
- TRAC TRACTION CONTROL**
Helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).
- ABS ANTI-LOCK BRAKE SYSTEM**
Prevents brakes from locking up by "pulsing" brake pressure to each wheel to help you stay in control in emergency braking situations.
- EBD ELECTRONIC BRAKE-FORCE DISTRIBUTION**
Redistributes brake force to help keep the rear wheels from locking up during sudden braking situations.
- BA BRAKE ASSIST**
Detects sudden or "panic" braking and adds the full pressure needed to help prevent a collision.⁷
- SST SMART STOP TECHNOLOGY**
Smart Stop Technology is designed to reduce engine power when the brake is firmly applied helping to bring the vehicle to a stop, even if the accelerator pedal is fully depressed.⁸

Toyota was the first full-line manufacturer to make all of the elements of the Star Safety System™ standard on every new vehicle. Visit toyota.ca for more details.

Conquer any road conditions

All-Wheel Drive lets you own any road you travel

With an electromagnetically controlled coupling positioned at the front of the rear differential, Sienna's All-Wheel Drive (AWD) system uses

information sent from various sensors to transmit only the necessary amount of torque to the front and rear wheels. Sienna is also the only minivan in its class that offers these features.

MUDDY SURFACE
If the driver applies excessive pressure to the accelerator, Traction Control helps prevent wheel slippage on all kinds of surfaces.

GRAVEL SURFACE
No matter the surface of the road, standard Electronic Brake-Force Distribution optimizes the amount of brake force sent to each wheel. Sensors read the vehicle load in Sienna and send the appropriate brake force to each wheel.

WET SURFACE
The computer-controlled Anti-Lock Brake System modulates the brake pressure when braking hard or when braking on a slippery surface, helping to avoid wheel lockup and maintain steering control.

SLUSHY SURFACE
In winter conditions, Vehicle Stability Control⁶ helps prevent the vehicle from slipping sideways as a result of losing traction while driving, cornering or stopping.

MOBILITY

As part of the Toyota Mobility Program, and in keeping with our "make things better" philosophy, Toyota Canada makes available specific 2013 Sienna models for mobility conversions to help those living with physical disabilities. To learn more visit toyota.ca.

(1) All Toyota vehicles shown in this brochure, have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer.

(2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

[3] Toyota tests certain Bluetooth® capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth technology are available with bilingual compatibility. Please see your Toyota Dealer for details.

(4) The Toyota Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available for every city or roadway. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details.

(5) A single-disc DVD player is standard on vehicles equipped with the Dual-View Entertainment System. A separate DVD player or compatible game system utilizing the centre console's audio/video inputs is required in order to use the split screen function.

(6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control.

[7] Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

(8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping.

Colours

INTERIOR COLOUR OPTIONS

- A Light Grey Fabric on Sienna V6, all LE models.
- B Light Grey Leather on XLE, XLE AWD.
- C Bisque Fabric on Sienna V6, all LE models.
- D Bisque Leather on XLE, XLE AWD.
- E Dark Charcoal Fabric on SE.

Please see your Toyota Dealer for details.

New vehicle warranty summary

No deductibles – no transfer fees

COMPREHENSIVE COVERAGE

3 YEARS OR 60,000 KM This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS

5 YEARS OR 100,000 KM This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS

8 YEARS OR 130,000 KM This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION

5 YEARS UNLIMITED DISTANCE This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

Accessories

Personalize your Sienna to enhance both its appearance and performance. Many of Toyota's Accessory Parts can be residualized or advanced through Toyota Financial Services when purchased at the same time as your new vehicle, and yes, they are all backed by a Toyota Warranty. For a complete list of vehicle-specific accessories, visit customizeyourtoyota.ca, your local Dealer or toyota.ca.

Committed to Canadians, today and tomorrow

Being a leader in the automotive industry does not simply start and finish with making great vehicles. It also means being a leader in the community. Toyota Canada and its dealerships across the country fund non-profit programs that work to make a difference for Canadians through direct community involvement.

As part of our ongoing commitment to the environment and education, we established the Toyota Evergreen Learning Grounds program. This program is designed to transform Canadian school grounds into natural learning environments so that students can have a healthy place to play, learn and develop a genuine respect for nature. We also support Special Olympics Canada, which helps athletes reach their full potential through participation in events from a local to a national level.

Visit us at toyota.ca to learn more about our programs and commitment to make things better for Canadian communities, today and tomorrow.
